Freight Program

As an added incentive for distributors to stock Kasco equipment, we have a freight program to help cover some of the costs involved with shipping large orders. Any order over \$10,000 will receive 50% off the freight charge and have the remainder of the freight added to the invoice, using our preferred freight carrier. This gives you half the freight free and allows you to take advantage of our shipping discount by having the freight prepaid and added to the invoice. If you choose to pick up or use another carrier, we will credit you 50% of the cost it would have been with our carrier. This free freight policy only applies to shipment to your location and does not involve drop shipments. The intention of the free freight program is to reward our STOCKING distributors.

IMPORTANT:

Prices in bold have cords with quick disconnects already installed

There will be a 10% restocking fee for returned orders. Items may not be returned after they have been in the water.

A \$10.00 fee is added for any order Drop Shipped by Kasco. Also, a \$5.00 fee is added for any order less than \$50 (before tax and freight).

* Prices subject to change without notice and prices are not guaranteed for the entire year.
